## UNION PACIFIC DROPPED BACK

U. S. Steel Was the Leader in Wall . Street Yesterday.

MARKET VERY IRREGULAR

CLOSE FOUND PRICES AT THE BOTTOM.

New York, Nov. 2t.—The activity of prices today was more confused and irregular than is often seen on the stock exchange. The action of some stocks exchange. The action of some stocks Republic Steel Preferred ... Preferred ... Prock Island C became so erratic as to unsettle speculative sentiment and lead to general selling late in the day. The market as a result of doubts aroused was thrown into decided duliness for a considerable time. Recent speculative favorites were the centers of the movement. The trading showed them under pressure of the same character as of yesterday. Vigorous support ran them up to good gains over last night's level, but this advance gain was followed by constant and violent fluctuations both up and down.

The provergent in Union Bettle specularity specific 19,800

vance gain was followed by constant and violent fluctuations both up and down.

The movement in Union Pacific also was calculated to puzzle observers. After yesterday's sudden rise this stock was almost immovable until the general break at the last, any effort to rise above last night's level meeting such heavy offerings as to drive it back. These offerings, however, quickly decreased in the decline in the prices and evidences support for the stock developed. This would point to a process of profit taking on the wide advance of yesterday. There were besides various new points of positive strength throughout the market, while some stocks suffered from continued weakness.

United States Steel preferred was the most prominent substitute for yesterday's leadership of the market by Union Pacific. Baltimere & Ohio also enjoyed a period of strength and there was a current supposition that large speculative accounts were being shifted from Reading into Union Pacific and Baltimore & Ohio. Amalgamated Copper had the advantage of another advance in the market price of the metal and in London there was a sudden rise in the price of copper futures which almost closed the gap existing for some time between the price of futures and spot copper in that market.

There were a number of developments of interest to the market, but not all

the price of futures and spot copper in that market.

There were a number of developments of interest to the market, but not all of them were reflected in any consistent way in the action of the market. Unsettled affairs abroad were responsible for the general decline in the early dealings, the attitude of Turkey toward the powers and the British ministerial crisis, in deciding some selling here for foreign account. The general weakness late in the day seemed to be due to the suspicion engendered of the wholesale profit taking on the part of the large speculative leaders of the market. The estimates of the week's current movement based on statements from bankers indicated a gain in cash by the banks to be reflected in tomorrow's bank statement.

There have been heavy receipts by express from various points of the interior. Yesterday's transfer to San Francisco of \$600,000 deposited at the subtreasury turned the earlier gain by the banks from that institution into a loss of several hundred thousand dollars and an additional deposit today of \$300,000 for transfer to the same point promised to increase these figures, but the receipts by express were estimated to be sufficient to afford a net gain of at least \$3,000,000. Discounts in London yielded to below the, bank rate today and foreign exchange here was weak.

least \$3,000,000. Discounts in London yielded to below the bank rate today and foreign exchange here was weak. Some very large sums offered in the call loan market at the stock exchange were reported to be the proceeds of sales of finance bills in the exchange market by foreign banking houses.

Reports were circulated of threats of labor troubles on the part of the leaders amongst the coal miners, but these were subsequently denied and were not of much apparent influence. The market closed under the influence of a good selling movement, with the tone weak and prices at the lowest of the day.

Bonds were easier. Total sales, par values, \$2,729,000.

United States bonds were all uncharacters.

values, \$2,729,000.
United States bonds were all unchanged on call.

## HOLIDAY TRADE IS IMPROVING PROGRESS MADE EACH YEAR

Mercantile Collections Reported as Satisfactory.

HEAVY GOODS SALE SLOW

SOME APPREHENSION OF THE

LABOR TROUBLES.

New York, Nov. 24.-Duh's Weekly Reriew of Trade tomorrow will say: Fundamental conditions are unchanged, although higher temperatures at many points again checked retail sales of heavy weight wearing apparel and other seasonable merchandise. Labor conditions in the building trades have not improved, and another serious struggle may occur, which would be most unfortunate in view of the large operations under way and contemplated. Otherwise the situation is satisfactory and the outlook bright, with mercantile collections steadily improving. Holiday trade gathers impetus as the season advances. Comparisons with last year's figures continue favorable, this week's gains being swelled by the holiday a year ago, but equilibrium in this respect will be restored next week. Leading indusarial undertakings report little idle machinery, and there is less complaint regarding car shortage. Railway carnings thus far available for November exceed last year's by 6.4 per cent. Foreign commerce at this port for the last week showed a loss of \$1.089,032 in exports and a gain of \$2,177 in imports, as compared with the same week last year.

Quiet conditions prevail in the market for packer hides, chiefly because orders cover deliveries so far into the future that sellers are indifferent regarding new business.

Enilures this week numbered 228 in the conditions in the building trades have

some Comparisons. The statement makes comparisons of the united business.

Failures this week numbered 228 in the United States, against 205 last year, and 34 in Canada, compared with 29 a year ago.

Bradstreet's Review.

New York, Nov. 24.—Bradstreet's tomorrow will say: Mild, open weather favors in a high degree the unprecedented activity in all industrial lines, but unfavorably affects retail trade in wearing appared and retards collections, which also feel the adverse influence of country-wide freight congestion. Perhaps the most marked evidence of confidence in the future is found in the metal markets, which display a strength of demand and of prices not usual at this season. Copper is particularly strong, the situation in this market being best illustrated by the fact that this week has seen export trade fall of and actual imports of Spanish and Chilean bars. Silver is at the first half of note expand as hoped for earlier, owing to large Russian and Argentina shipments. Prices are steady at close to the highest. Money is active the country over. Railway earnings show further expansion, the gain for the first half of November being about 3 per cent. Net returns for nine months show a gain of 7 per cent.

The statement makes comparizons of the united active that the state year, and with the same period prior to annexation, in the nine months of the United States amounted to \$1,050. Shipments of the United States amounted to \$1,050. Shipments significantly in 1965. The shipments of 1897 amounted to \$1,050. Shipments from the Philippines for the nine months of 1897 amounted to \$1,050. Shipments from the United States amounted to \$1,050. Shipments of significant the total control of the prices not usual at this season. Copper is particularly strong, the situation in this market being best illustrated by the fact that this week has seen export trade fall of and actual imports of Spanish and Chilean bars. Silver is at the high period in food products does not expand as the price are steady at close to the highes

Metal Markets.

New York, Nov. 24.—The London tin market was 5s lower at £153 lbs for spot, but futures unchanzed at £152. Locally the market was reported firm, with spot quoted £1 £3.55(25.75)

Copper was decidedly higher abroad, closing at £76 for spot and £75 bs for futures. The local market is strong. Electrolytic is said to be in better demand than lake, and sales have been made, it is said, around 17.62½, while it is believed that little if any business has been done in lake above 17.50. Generally speaking, quotations range as follows: Lake and electrolytic, 17.12½-2017.62½ and casting at 16.75(17.25).

Lead was unchanged at £15 7s 6d in London and at 5.25(25.75 in the local market.

Spelter was also unchanged in both markets, closing at £28 12s 6d in London and at 5.10(26.20 in the local market.

Iron was higher abroad, with standard foundry quoted at 52s 6d and Cleveland warrants at 53s 6d. Locally the market is reported firm at recent prices. No. 1 foundry, northern, is quoted at 18.75(2) 18.85; No. 1 foundry, southern, at 18.50(2) 18.75, and No. 2 foundry, southern, at 18.50(2) 18.75.

week last year, 3,831,767 in 1903 and 4,179, 685 in 1902.

From July 1 to date the exports are 44.871,535 bushels, against 23,015,471 last year, 68,727,795 in 1903 and 109,437,699 in 1902.

Corn exports for the week are 1,019,522 bushels, against 10,952,474 in 1902.

Prom July 1 to date the exports of corn are 21,802,979 bushels, against 10,952,576 in 1902.

Business failures for the week ending Nov. 23 number 23, against 198 last week, 183 in the like week of 1904, 167 in 1903, 182 in 1902, and 189 in 1901.

In Canada failures for the week number 90, as against 41 last week and 41 in this week a year ago.

GRAIN AND PROVISIONS.

Chicago, Nov. 24—The wheat market opened weak, initial quotations in May being off 150% to \$32% at \$5% to \$8%. The decline was due chiefly to weakness in the market at Liverpool. The failure of the English market to respond to yesterday's advance here seemed to local traders to indicate that foreigners did not entertain serious fears concerning the Argentina crop situation, and consequently traders here were inclined to dismiss the idea that the Argentina crop had been severely damaged by frost. As a result the price of May declined to \$85 (88%). The fact that rain had last night fallen over the greater portion of the wheat-growing territory of the Littled States was apparently ignored early in the session. On the decline a leading bull became an active purchaser of May wheat. This created a general demand, which resulted in a sharp upturn. Reports of large sales of flour at Mineapolis, which came in about this time were an important factor in the situation. The strength of cash wheat at that grain center size stimulated the demand of the day was reached at \$5%. The market was steady during the latter part of the day. Final quotations in May were practically unchanged at \$5%. The market was steady during the latter part of the day. Final guotations in May were practically unchanged at \$5%. The market was steady during the latter part of the day. Final guotations in May were practically unchanged at \$5%. The market was steady during the latter part of the day. HEAVY INCREASE Commerce of the United States With Its Non-Contiguous Territory.

FIGURES SHOW

COMPARISON WITH PERIOD PRI-OR TO ANNEXATION.

Washington, Nov. 21.—The commerce of the United States with its non-contiguous territory in 1965 seems likely to exceed by many million dollars that of any preceding year, according to a statement issued by the department of commerce and labor through its bureau of statistics. The bureau's mounts statement, ending with September, shows that the shipments from the United States to its non-contiguous territory amounted to \$35.52,174, against \$23.934,078 in the corresponding months of the preceding year, and that the shipments of merchandise to the United States from its non-contiguous territory in the same period amounted to \$65.52,150, against \$47,141.635 in the corresponding months of the preceding year.

### Merchandise Only.

Merchandise Only.

The figures given relate to merchandise only and do not include the gold and silver, of which the shipments from Alaska to the United States which were only \$7,600,000 of gold produced in that territory and \$5,500,000 of foreign gold shipped from Alaska, being presumably that originating in British territory adjacent there to. In the merchandise shipped from Alaska to the United States there is a falling off of a little less than \$2,000,000 compared with the previous year. In shipments from the United States there was an increase of a anny \$2,000,000 to Alaska, of over \$32,000,001 for Porto Rico, about \$1,000,000 to the Philippines and nearly \$1,000,000 to the Figure waitan islands.

In shipments from non-continuous territory to the United States there was an increase of about \$1,000,000 from Porto Rico, of over \$4,000,000 from the Philippires and of about \$12,000,000 from the Hawaitan islands.

Some Comparisons.

The statement makes comparisons of he contrast in the trade of the United

a gain of 7 per cent.

The wool market is rather quieter, with the wool market is rather quieter, with former values.

Wheat, including flour, exports for the week ending Nov. 23, are 3,353,063 busnels, against, 4,759,211 last week, 1,332,356 this week last year, 3,851,767 in 1903 and 4,179, From July 1 to date the exports are reconstricts.

## CASTRO NOT TO BLAME LIFE PRISONER IS

French Did Not Come for the Money Due and It Was Handed to the American Minister.

Caracas, Nov. 24.-In view of the faci that no representative of the French

Robin made several important announcements regarding the government policy on which it will appeal to the electorate. Manitoba is to have a state-owned system of telephones, as well as other government ownership of public utilities, he announced. There is also to be increased taxation on railroads.

These matters will likely receive consideration at the forthcoming session of the legislature.

The employment of the plumies are the money was due, the Venezuelan government asked the American minister, Mr. Russell, to receive the installment, and yesterday the money was delivered to the American minister. It was unnounced from Paris, Nov. 16, that the foreign of the Plumies are consideration as the resident Castro, Nov. 15, had refused to pay the second installment of the Plumies are consideration award. The arbitration covered damages sustained by French citizens of Venezuela during revolutionary periods prior to 1993. The judgment was in favor of France which was awarded about \$550,000, and President Castro paid the first installment three months ago.

Paris. Nov. 24—A dispatch from L'Orient says the French cruiser Jan Eart will take on her armament Dec. 12 for the purpose of forming part of the division charged to make a demonstration in Venezuelan waters. The ministry of marine, however, will not give additional details. The foreign office officials insist that no decision has 'yet been taken to use force, but they add that the naval branch is taking preparatory measures so as to be ready in the event of the failure of the negotiations to secure a pacific solution.

### **EXPRESS COMPANY IS** SHORT ONE THOUSAND

Portland, Ore., Nov. 24.—A special dispatch from Pendleton, Ore., to the Evening Telegram says:

A package containing \$1,000 has mysteriously disappeared from the office of the Pacific Express company in this city. Officials of the company cannot get information as to wether the money was lost while conveying it to the local. getting no better when I beganst Dr. King's New Discovery. The dose gave relief, and one bottle me." Sure cure for sore throat, chitis, coughs and colds. Guara at Z. C. M. I. Drug Dept. Price 50, \$1.00. Trial bottle free.

Foundry Burned.

Indianapolis, Nov. 24.—A fire early to-day practically destroyed the big plant of the T. H. Brooks Foundry company, manufacturers of structural iron. Loss, \$100,000. The plant of the Otis Steel company, across the street from the Brooks building, caught fire and for a time was threatened with destruction. The flames were finally checked, however, after causing a loss of \$19,990.

# SENT TO THE GALLOWS

Sacramento, Cal., Nov. 24.—After being out twelve minutes in the case of John Finley, a Folsom prison convict charged with conspiracy to escape, the jury at noon today brought in a verdict finding him guilty as charged. He was serving a life term for robbery, and under the law when such a prisoner is found guilty of attempting to escape he must die on the gallows. Finley was one of the ring-leaders of a gang of desperate convicts who led an outbreak at the prison nearly a year ago and threatened to murder officers who were in their way.
